## LOCAL STRIKES AUTOMOBILE

Following close on the footsteps of  
the car accident of the Saturday be-  
fore last, Mr. Frank Amatto came  
near meeting death on Monday eve-  
ning when the car he was driving was  
struck by the westbound local at the  
crossing in the east end of town.  
That he escaped death is indeed a  
miracle for the train was going at  
full speed to make the grade that  
leads up to the station, and struck  
the left front wheel of the car, turn-  
ing it on its side and carrying it  
along for a few feet. Amatto suffered  
severe cuts on the face and legs  
and was also badly bruised and other-  
wise shaken up. The car, which be-  
longed to Steve Dorengo, was also  
badly smashed and is beyond hope of  
repair.

Just how the accident happened has  
not yet been ascertained. Amatto  
was driving south and passed a truck  
on the approach to the crossing and  
whether he was talking to the truck  
driver and did not notice the train, or  
whether he thought he could beat the  
train across, is not known. The train  
whistled for the crossing and stopped  
within a few hundred yards after it  
had struck the car. Men rushed to  
Amatto's assistance at once and re-  
moved him from the car and he was  
taken home immediately. A large  
crowd also gathered in a few mo-  
ments and it was very difficult to  
view the scene.

It was only a little over a year ago  
that Amatto was in a like accident—  
it being when Picarello's truck was  
struck at the crossing near station.  
He escaped from that accident with  
only a slight shaking up.

The C. P. R. placed a guard on the  
crossing for the following 72 hours to  
record the traffic passing over it and  
if the traffic warrants, a gate with  
an attendant will be placed there.

## I.O.O.F. PICNIC BIG SUCCESS

The Rebekahs' and Oddfellows' pic-  
nic at Lee Lake yesterday afternoon  
was attended by over one hundred  
and fifty members and their friends  
and was one of the most enjoyable  
affairs ever staged by the local I.O.  
O.F. Cars conveying the attendees  
left the hall at 1:30 and arrived at  
the Lake around three o'clock. There  
was free ice cream, soft drinks and  
oranges for all and after everyone  
had partaken of some of these re-  
freshments, the races were started.  
They were all keenly contested and  
fine prizes had been arranged and  
were presented to the winners. Mr.  
Patram, with all his size, figured in  
two races, winning a first and second.  
After the races the various parties  
scattered around and opened their  
lunch baskets and many good things  
were stored in them. Taken as a  
whole, the picnic came off very suc-  
cessfully. The spot chosen was not  
the very best but everyone seemed to  
enjoy themselves immensely. The  
ride down and back was also enjoyed.

## MINE RESCUE AND FIRST AID EVENTS WELL ATTENDED

The province of Alberta Mine Res-  
cue and First Aid Contests held at  
Banff on June 30 and July 1 was one  
of the best organized two days' dem-  
onstrations in life saving that has  
ever been demonstrated to the public  
on the North American continent.

The work that was completed by  
the competing Mine Rescue teams  
was work that would be done by them  
under the most dangerous conditions  
that exist after any mining disaster  
and the high efficiency that was  
shown and the manner in which they  
handled their different problems  
speaks well for the captains and  
members of each individual compet-  
ing team and their instructors in this  
very important work.

The spectators were amazed at  
the arrangements and the splendid  
work that was demonstrated and they  
followed, with interest, the work of  
each competing Mine Rescue team.

The developments and increasing  
interest in this humanitarian work is  
having a distinct annual showing by  
the increasing number of competing  
teams. This year's contest showed  
an increase of 25 per cent of com-  
peting teams as compared with the  
contest held last year.

The Senior, Junior and Ladies' First Aid teams gave a remarkable demonstration to the public of their efficiency in this work of applying First Aid to the Injured, and the three competing sections in this work made a pronounced impression with the spectators in their adaptability, carefulness, attention and efficiency in applying First Aid.

Many prominent mining men at-  
tended the two days' contest and fol-  
lowed the competing teams with very  
much interest and complimented the organization and the high showing of efficiency of the work done by the competing teams in all sections of the work.

Premier Greenfield was also in at-  
tendance and followed with interest the work of the teams from com-  
mencement to finish. The Premier, in presenting the prizes to the win-  
ning teams, commented very highly on the excellent showing in the work which was done.

The successfulness of the contest is due to the way each individual official in charge of his section of the contest performed his duties with only one object in view, to make the contest a big success and appreciation for the services they rendered during the contest is due to each individual who acted in any capacity previous to and during the contest, and their

## Sowing Seeds of Success

Habits formed in childhood days guide our development in later years. A thrifty boy usually becomes a successful man.

Your interest in your child's future is shown when you open a Savings Account for him while he is in the habit forming age. One dollar will open a Union Bank savings account.

full co-operation in all working to-  
gether showed an excellent combina-  
tion with a system in the demonstrat-  
ing of this work and the way it would  
be completed if under actual working  
conditions.

Spruce lumber from Alberta is very  
much highly prized in the Eastern

States, according to a prominent  
lumberman who was a visitor to Ed-  
monton during the past week.

The Alberta government has decid-  
ed against giving aid to the Salvation  
Army scheme for bringing a number  
of women and children to Canada  
from Great Britain.

## RICH IN VITAMINES

MAKE PERFECT BREAD

WORLD HAPPENINGS  
BRIEFLY TOLD

The Rumanian Government has made wheat a temporary monopoly.

Sidi Mohamed Ibn Nacir, the Bey of the regency of Tunis, Africa, died at the age of 67 years.

The Washington treaties bill, ratifying the pact signed at the Washington armament conference, passed the committee of the House of Commons.

A manifesto accusing the British Government of violating its pledges to the Arabs has been issued by the delegation in London.

Former Empress Zita of Austria, who is being temporarily sheltered in Spain, is said to be endeavoring to obtain a home in Bavaria provided she can obtain the consent of the allies.

Shell fire from a fort controlled by Chen Chung Ming, the United China leader, destroyed the munitions base of Sun Yat Sen, the deposed president of the Canton Government.

Arrested on a charge of manufacturing bombs, Placidio Castro, mayor of Lenzburg, Italy, blew up the court house, killing all the occupants, says a despatch to Central News.

The treaty between Japan and China, negotiated at the Washington conference, providing for the return of Shantung to China, has been filed with the League of Nations.

The London Evening News says: "Arrangements for repayment of the British war debts to the United States in a lump sum in the near future are in an advanced stage."

Twenty blind men employed in the Pennsylvania Association for the Blind at Wilkes-Barre, subscribed to a strike order because their foreman, also blind, had been displaced by a man with eyesight.

## Royalty Discouraging Snobbery

Encouraging Good Feeling Between Boys of Different Social Status  
The Duke of York, second son of the King, is repeating this year the experiment he made last year, for what has been called "the discouragement of snobbery." So thorough an understanding was then established between boys from Westminster School and boys from a Welsh steel works, following a football match, that a summer camp was set up by the Duke to encourage good feeling between boys of different social status. Two hundred public school boys with an equal number from congested and industrial areas were invited to share the camp.

DEEP HOLLOW COUGHS  
ARE MIGHTY DANGEROUS

That same cough is everywhere you go, deep and hollow, why—because consumptive. First it was a cold, next came Catarrh, vitality decreased then the trouble was very serious. Never neglect a cold, not even a little one. Never trifle with sore throat or Catarrh. Get out your Catarrh-remedy Inhaler, breathe deeply into your lungs the healing soothing vapor of Catarrh-remedy. Let Catarrh-remedy clear out the nostrils. You'll wonder at the change when you use this healing remedy. It's really splendid for coughs, colds, bronchial irritation and Catarrhal trouble. Sold everywhere. Two months treatment \$1.00, small size 50c.

## Banner of Postage Stamps

150 Attached to Letter Mailed in Soviet Russia

With a "banner" of postage stamps 3 feet long and 7 inches wide attached, a letter has just been delivered from Soviet Russia to Ben Litvin at Wandsworth. The letter was posted in a suburb of Kiev.

The stamps are 150 in number—50 are 200-ruble stamps and 100 are 3,000-ruble—of the total value of 40,000 rubles. As before the war and the Russian revolution the ruble was worth about 40 cents, the present value of these stamps would be \$20,000. Now the total actual value is trifling.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holway's Corn Remover.

The cost of a doctor's degree in a German university is now 500 marks, about \$6 at the present rate of exchange.

As an experiment at the University of Wisconsin, cows are being fed sawdust treated with water.

## Quite Chic!

With her blue bird hat of milan and taffeta, she wears gauntlet gloves of heavy silk, with wrist straps, held in place by a buckle.

MANY CHILDREN SICK,  
HOW TO TREAT THEM

The kiddies will get their feet wet, catch cold, get cramp and give their mothers lots of trouble. With the first cough or sneeze, rub the little one's chest with Nerviline, rub it on plentifully. It can't harm. It makes a gargle with Nerviline and water, and have the child gargle for five minutes. Just at bed time, give the child ten drops of Nerviline in hot sweetened water. The result is, and next morning child is bold, Nerviline is a great protection in the home. Large 35c bottles at all dealers.

Burns committed his poems to memory as he composed them, and when he sat down to write he had before him no labor of composition, but only the task of writing down what he had already finished.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugist's.

## Chinese Girl Wins Prizes

Twelve-Year-Old Student Excels As Cook and Essayist

One of the happiest of the 170 children who were graduated from Public School No. 23, Third and Mulberry Streets, New York, was Miss Florence Low, twelve-year-old Chinese, living at 34 Mott Street.

Besides winning the Morgan award of \$20 for being the best cook in District 1, she won the second prize of \$15 in the Evening Post competition contest with her essay on American history. The contest was open to all school children of New York under sixteen years of age. About 100 essays were submitted.

Miss Low was one of the fourteen honor pupils who occupied seats on the platform with the School Principal, Joseph D. Reardon, and the teachers. Her teacher is Miss Ethel C. Bapin. Fellow graduates and schoolmates applauded enthusiastically when Florence stepped forward to receive her prizes.

"The Chinese make ideal pupils," Mr. Reardon told a reporter. "In the twenty years of my teaching career I have never encountered a Chinese who did not have an excellent school record."

Of the 170 graduates ten were Chinese boys and girls.

## Recovering Fuel

A new process is now in use for recovering fuel from cinders.

A hundred tons of coal used in a furnace leave about twenty tons of cinders, from which five tons of good coal fuel can be recovered by means of magnetism. The fuel contains sufficient iron to make it possible to extract it from the non-magnetic ash, and it is believed that millions of tons of fuel can be saved in this way.

Siberian Rivers Have Ice Beds  
Rivers in Siberia are different from rivers in other parts of the world in one feature, many of them running over beds of ice. One of the tributaries of the Lena River has a bed of ice from which the water flows in thickness, over which the water has been flowing probably for hundreds of years.

Minard's Liniment for Burns, etc.

## Keep Money in Family

William Rockefeller Did Not Leave Anything to Charity

William Rockefeller's will, which has just been made public, leaves an estate of \$150,000,000, not one dollar of which goes to any charity, philanthropy or public service. The whole vast estate is left to the members of his family. Even an old retainer who had shined Rockefeller's shoes for forty years, and was specially invited to the funeral, being overlooked. Rockefeller's money was his to dispose of as he saw fit, but the manner in which he has passed it on to his descendants will tend to promote legislation that will make it impossible for vast estates to pass intact to future generations. Successful duty laws are year by year taking a larger toll of inherited wealth, and such striking examples of selfishness as William Rockefeller's will give will be a powerful argument in the hands of those who see a grave and growing menace in the concentration of wealth in the hands of a comparatively small section of the population—Farmers' Sun.

KEEP CHILDREN WELL  
DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera, infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is snuffed out after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevents stomach and bowel troubles, or if the trouble comes sudden they will bring baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Circle Tours Through the  
Canadian Pacific Rockies

Delightful Trip Afforded for Tourists Over C.P.R.

By the most magnificent mountain and inland water trip in the world, passing through beautiful Banff, lovely Lake Louise, Field and Glacier House to Arrowhead—steamer through the Arrow and Kootenay Lakes, winding in and out past majestic mountain peaks—touching at West Robson and Nelson enroute.

This delightful trip can be made in the opposite direction if desired and at remarkably low cost.

Any Canadian Pacific ticket agent will gladly give full information and arrange details.

## World's First Broadcasting Auto

The first radio phone broadcasting automobile in the world was operated on the streets of Winnipeg in a test trip which proved an unqualified success. The remarkable feat of broadcasting the human voice through the air from a rapidly moving car using a specially designed transmitter was accomplished after exhaustive experimental work by L. V. Salton, radio engineer.

Proofreaders Are Fallible  
"But I doctor myself by the aid of medical books."

"Yes and some day you'll die of a misprint."—Boston Transcript.

## The Exodus from Canada

Greater Proportional Increase in Population in Canada than in the States

There has been a great deal of unnecessary discussion and regret over the supposed loss of some two millions of our population during the last decade, in the opinion of the Vancouver Province, which has been making an investigation and declares that "no such migration took place." Immigration into Canada has always been overrated in the official reports and the rate of natural increase used in the calculation of what our population should be is much too high, according to the Province. After examining and comparing the United States decennial census taken in 1920 and the Canadian census taken in 1921, it suggests that we have reason to cheer up because there has been a greater proportionate increase in population in Canada than in the United States during the ten years and, with one exception, every Canadian province along the border has had a greater proportionate increase of population than the States just across the line. The exception is the State of Michigan. The province of Prince Edward Island lost population during the decade but so did three States of the Union.

The Province does not deny that there has been a large exodus from Canada; its argument is as to the extent of the exodus. An admission that a substantial southward movement exists is clearly implied when it says:

In the years before the war Canada was receiving more settlers from the United States than we were sending to that country. We were receiving more each year than the whole world immigration which has stamped its impression forever on the history of this country. It is expected that the movement from the United States to Canada will this year far exceed the movement from Canada to the United States.

The absence of actual statistics and the consequent uncertainty as to the number who have gone from Canada to settle permanently in the United States makes the subject a very good one for debate. But after the pros and cons have been sufficiently discussed the moral of the whole matter should be quite plain, namely, that we should have careful and accurate statistics kept of the immigration into the Dominion and also of the exodus from the Dominion. We should know the exact number of each nationality entering the country and should have a similar classification of those who are leaving. The statistical branch at Ottawa could apply itself to no more important work than that of arranging for securing accurate information as to the annual exodus to the south. These are the foundation years of the Canadian nation, and we should have definite knowledge of the constituent elements that are being won permanently into it.—Free Press.

## Curiosity Inextinguishable

Mother: "You shouldn't eat your cake so quickly, Bobbie. I once knew a little boy who ate his cake so quickly that he died before he finished it."

Bobbie:—And what did they do with the rest of the cake, mother?

We can never retain a friend long if we are not willing to take pains to find out his peculiarities and respect them.

SASKATCHEWAN  
WOMAN  
RECOVERS

Found Health by Taking  
Lydia E. Pinkham's Vegetable Compound

Melara, Saskatchewan.—"I saw Lydia E. Pinkham's Vegetable Compound advertised for women's troubles and when a friend recommended it to me I tried it and it has done me so much good in the two years in which I have been taking it that I find I am a different woman since then. I recommend your Vegetable Compound as much as I can and you may use my letter as a testimonial."

—Mrs. Wm. J. Thomas, Melara, Saskatchewan.

These letters recommending Lydia E. Pinkham's Vegetable Compound ought to convince women of the great worth of this medicine in the treatment of ailments to which they are often subjected.

Mrs. Thomas writes that she is a different woman now. If you are suffering from troubles women often have, or feel all run down, without any ambition or energy for your regular work, take Lydia E. Pinkham's Vegetable Compound. It is a natural restorative and should help you as it has Mrs. Thomas and many, many other women.

This medicine has been helping sick women nearly fifty years—surely a long record of service.

## Ski Jumper Injured

Sprained Ankle at End of 100 Foot Jump

Drennan Holton, of Revelstoke, B.C., sustained painful injuries during an exhibition jump in Ranier National Park on the opening day of the fifth annual ski tournament. Holton fell at the end of a 110 foot jump, the longest of the day, and sprained his left ankle. One of the skis left his hold and struck Holton over the left eye cutting a severe gash. Holton was taken to Paradise Inn on a toboggan where his injuries were dressed. Nels Nelson, of Revelstoke, B.C., made 105 feet without falling, the most spectacular jump of the day. Sigurd Johnson, of Tacoma, jumped 95 feet, and Peter Blucher, of Tacoma, 75 feet, E. Egan, of Hope, B.C., made 90 feet.

## Had Your Iron Today?

The Delicious Bread  
—of Energy and Iron

SERVE raisin bread twice weekly on your table for three reasons:

1. Flavor; 2. Energy; 3. Iron  
You remember how good a generously filled, full-fruited raisin bread can be. Your grocer or baker can supply a loaf like this.

Insist—if he hasn't one he can get it for you. Full-fruited bread is full of juicy seeded Sun-Maid raisins—rich in energizing nutrient in practically predigested form.

Raisins also furnish fatigue-resisting iron for the blood.

Serve plain raisin bread at dinner or as a tasty breakfast toast with coffee.

Made delicious bread pudding with left-over slices. No need to waste a crumb of raisin bread.

Begin this week the habit of raisin bread twice weekly in your home, for raisin bread is both good and good for you.

Sun-Maid  
Seeded Raisins

Make delicious bread, pies, puddings, cakes, etc. Ask your grocer for them. Send for free book of tested recipes.

Sun-Maid Raisin Growers  
Membership 17,000

### Cowley Happenings

Miss Rita Coates returned to Calgary Sunday night.

Mr. and Mrs. Les Colvin, of Calgary, are visiting at Mrs. Latta's.

Mr. Moore, of Cowley and Mr. Matthews, of Beaver Mines, exchanged pulpita Sunday night.

Miss Gladys Baines and Miss Nellie McWilliams are vacationing at Nelson, B.C. They will return via Banff.

J. D. McGregor, of Brandon, and P. Verger are business visitors to Cowley this week.

Clare Snyder, of the Union Bank staff, Blairmore, is holidaying at his home here.

Mrs. VanDusen and young son are the guests of Mr. and Mrs. Jack Rhodes.

Three inches of rainfall in July to date has practically assured a fair crop.

The Swart and Morrison families are camping on the North Fork for a week.

Mrs. Nellie Gillespie has returned from Oregon, where she has been visiting for several months.

Dr. H. B. Hoare, of Blairmore spent the week end with Mr. and Mrs. Bundy.

The Porter family have gone to their ranch to spend the remainder of the school vacation.

Jas. Connor has accepted a position with the Alberta Pacific as grain buyer.

Miss Rosamund Blackburn was the guest of Muriel Murphy over the week end on her way to join a camping party in the Gap.

The repair gang of the Alberta Pacific Grain Co. are putting the Cowley elevator in shape. Mr. Moir, after a long convalescence, has returned to duty.

### SHACKLETON'S LONDON CLUBS

Sir Ernest Shackleton in the intervals of his expeditions and travels figured a good deal in London life, (says the Manchester Guardian). He had a way of being prominent wherever he went. Leadership is a gift which comes out even when there is no leading. He had some family troubles, and took on a burden not necessarily his which handicapped him when he most needed his resources.

Latterly his favorite club was the Marlborough, where he was immensely popular. He created an innovation in that centre of leisure and propriety by conducting a large part of his correspondence and giving interviews there to aspirants after fame who wished to join his expedition.

Another club, a very humble one, in which Shackleton was greatly welcomed was a little dining society in Soho called "The Penguins," consisting of Arctic and Antarctic explorers and some friends interested in their work. Stefansson, Bruce, Young and many other heads of expeditions were entertained there in a simple and warm way. Shackleton was one of the several members who died on service. The most loved of all was little Murray, the oceanographer, who sang many a Scottish song in that low-roofed room with its frieze of penguins painted under the ceiling. He was lost in one of Stefansson's expeditions.

### TEACHERS' SUMMER SCHOOL

Over 600 teachers from all parts of the province are attending the annual summer school now in progress at the university, under the auspices of the provincial department of education, and under the supervision of G. F. McNally, supervisor of schools.

During the bye-elections of the past week to fill the vacancies in the legislature in the ridings of Sedgewick, Whitford and Ribstone, three new farmer members were elected. A. G. Andrews was elected by acclamation in Sedgewick to fill the vacancy caused by the retirement of Hon. Chas. Stewart; A. Chorobus was returned in Whitford over A. S. Shand, the former member, and in Ribstone W. G. Farquarson was elected over H. J. McKenna, a Liberal candidate.

The De'evue and Hillcrest football teams will play here on Saturday.

Mo' on picture vidigra et a noo Active campaign to bring settlers to the irrigated lands of the Lethbridge Northern District has already commenced, under the auspices of the irrigation council, with the co-operation of the dominion government immigration officials, who will place men in the field in the Western States to seek these immigrants. The campaign is being handled from the Lethbridge office of the irrigation council.

We give herewith a cut of the SHUR-START BATTERY which will sell at \$25.50 for a 6 volt, 11 plate cell and \$31.50 for a 12 plate cell and are guaranteed for one year and built in Blairmore. No battery is any better than the plates used in them. The plates that we use in the SHUR-START are made by the Alberta Battery Co., of Calgary, who guarantee them to be second to none used in any battery made. So why pay more for your battery than above prices. We will be pleased to give intending purchasers a demonstration and full particulars if they will call at our works on Victoria Street East.

Dancing is under a ban by the city fathers of Montreal, who have restricted the hours in that it will be "again the law" to dance after 12 o'clock on the week days and is not permissible on Sundays. Most people will agree that the young must be protected from evils from themselves. No doubt later on the new by-law will work out to the satisfaction of all concerned. Cicero said that "No man in his senses will dance." Theodore Parfitt, identity in dancing reckoned it up, "Dance, laugh and be merry; but be innocent." Ann Talmage, whose word carried weight, was very incisive when he expressed himself: "Social dissipation, as witnessed in the last man is the abject of pride, the destroyer of health; it is the defiler of the soul; it is the avenue of hell; and the curse of every man in America." There has been much adverse criticism against dancing, and it is undoubted. Moderation in dancing as in other things, is advisable — Montreal Gazette.

## What Chiropractic Has Done

The Chiropractor has accomplished with his bare hands what other methods have failed to do; he has given his patients a new lease on life, and the simplicity of his methods are a source of wonderment as to why it was not discovered long before by those who made a life-long study of man and his ailments. The explanation seems to lie in that they studied the symptoms rather than the causes.

Chiropractic is based on the theory that all ailments are traceable nerve irritation or impingement caused by abnormal positions of the bones of the spine, which may be due to falls, mental or physical shocks, severe illness, etc. After twenty-five years of successful application there can be no legitimate refutation of this theory.

Chiropractic is not limited to nervous disorders only, but is an effective remedy in such cases as fevers, tumors, appendicitis, catarrh, pneumonia and other chronic and acute ailments.

### RED CROSS NOTES

Alberta may be well proud of her children as the following figures will show. At the recent test held by the Red Cross at their demonstration stall at the Calgary exhibition it was found that of the two thousand one hundred children weighed only twenty were cases of mal-nutrition. There were several cases of children slightly under standard by one or two pounds but these were of negligible quantity. It must be remembered that these were all nearly city boys and girls. Mothers who were interested in the diets listed on the diet table can obtain diet cards by applying to the Red Cross Division Headquarters, Calgary.

### Rules of the Health Game—

1. A bath more than once a week.
2. Brush the teeth at least once a day.
3. Plenty of sleep with windows open.
4. Drink a pint of milk a day, but no tea or coffee.
5. Eat Some vegetables or fruit every day.
6. Drink four glasses of water a day.
7. Play out of doors every day.

8. A bowel movement every morning. Mr. R. H. Scott, field representative and organizer has been visiting in the northern part of the province and reports a new organization at Yeoford. This branch will devote its energies to assisting the district health nurse. A branch of the Junior Red Cross has been formed there also. Mr. Scott's tour has included visits to Wetaskiwin, Camrose, Oshawa, Dayland, Sedgewick, Loughheed, Killam and Provost. He has with him two excellent sets of lantern slides, illustrating the work of the Alberta Division in the province, including pictures of the Junior Red Cross Children's Hospital. The second set, entitled, "Health and Common Sense" deals with right living and good health. Any branches wishing to arrange for a lantern lecture should communicate with the Provincial office.

### GOLF NOTES

The result of the match with the Blairmore Ladies' team on Tuesday last, was as follows:

Mrs. Irvine 1/2 Mrs. Bird 6  
Mrs. Lawes 1/2 Mrs. J. Smith 6  
Mrs. Watson 1/2 Mrs. J. Smith 6  
Mrs. Owen 0 Mrs. Farmer 1  
Mrs. Liphardt 1 Mrs. Dubuc 0  
Mrs. Herchmer 0 Mrs. Green 1  
Miss M. Brown 1 Mrs. Burns 0  
Ferne winning in the singles by 2 points.

In the foursomes—  
Mrs. Irvine and Mrs. Lawes won from Mrs. Bird and Mrs. F. Smith.  
Mrs. Watson and Mrs. Owen won from Mrs. J. Smith and Mrs. Farmer.  
Mrs. Liphardt and Mrs. Herchmer lost to Mrs. Dubuc and Mrs. Green.  
Ferne winning by one point in the foursomes.

Mrs. T. Lawes presented two golf balls for the putting contest, which were won by Mrs. Farmer, of Blairmore, with a total of 14 puts for 9 holes. —Ferne Free Press.

### HAND IT TO LOCAL GOLFERS

If there any bouquets going these days we believe they should be handed to our local golfers. A perusal of golf competition records show our men winning with a high percentage. The following is the result of Wednesday afternoon's competition:

### AMUSEMENTS TAX REAL HARDSHIP, EXHIBITORS SAY

Increased tax on theatre admissions and its subsequent effect on the industry, was one of the salient questions, under discussion by the members of the Alberta Motion Picture Theatre association at the initial session of the annual convention, which commenced at the Macdonald hotel on Tuesday morning. Twenty-seven members, hailing from all parts of the province, including both exhibitors and representatives of film service corporations were in attendance. That the increase in the tax has worked a hardship on the business was the opinion voiced by John Hazza of the Capitol theatre, Calgary, who is acting as president. This statement was backed up by the general discussion on the subject, in which every member present expressed his views. The opinion was also given that the tax returns under the new rates were no larger than under the 2 1/2 cent rate, and that while the government is not losing money, the exhibitors are being made to suffer.

The session was opened by John Hazza, who introduced Howard Douglas, chief censor of the province. Mr. Douglas addressed the gathering briefly and at the conclusion, the following resolution was drafted and approved unanimously:

"Be it resolved that we, The Alberta Motion Picture Theatre association, at its annual convention, in the city of Edmonton, on July 11 and 12, 1922, do hereby extend to the Alberta board of censors a vote of appreciation and confidence. We believe that the province of Alberta has one of the best and most ably conducted boards of censor of motion pictures. Its members individually are, in our opinion, conscientious and capable, and broad-minded public servants, who safely guard the public morals and conserve the interests of the industry; and that a copy of this letter be forwarded to the premier. Moved by W. P. Pelkie, and seconded by Ed. Malhotra.

Mayor D. M. Duggan was introduced and gave a brief address to those in attendance, speaking on the future of the country and the large part in the public service that it is possible for the motion picture industry to play. His worship officially welcomed the gathering on behalf of

## Auction Sale of Timber in the Crowsnest Forest Reserve

**THE RIGHT TO CUT TIMBER** on a tract of land to be known as Timber Sale No. 111 will be offered at public auction at a rate per thousand and feet board measure at the Coleman Ranger Station, Coleman, Alberta.

The sale will be held at 2 o'clock p.m. on Monday the 31st day of July, 1922.

The timber to be cut is located on the northwest quarter of section 24, township 8, range 5, west of the 5th meridian and on section 25, township 8, range 5, west of the 5th meridian, all lying outside of Timber Berth No. 36A, Block 5.

There is estimated to be approximately 2,000,000 feet board measure of merchantable saw timber to be designated for removal from the sale area consisting of 1,200,000 feet of green spruce and pine and 800,000 of material, fire-killed in September, 1921. The upset price of this material is \$1.50 per thousand feet board measure for both classes of timber, and the purchaser will be allowed until May 1st, 1924, to remove the timber. Only such timber, within the area described, as may be marked or otherwise designated for removal may be cut, and all timber designated, whether standing or fallen, must be cut and removed from the sale area. The brush and other debris resulting from the operation must be lopped, piled and burned in accordance with the instructions and to the satisfaction of the Forest Officer.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$500 in cash, or bank draft or accepted cheque made payable to the Deputy Minister of the Interior, before being allowed to bid at the sale. The sale will be awarded on the basis of the amount offered per thousand feet board measure for the saw timber on the sale area. The department does not bind itself to accept the highest or any bid. The deposits of the unsuccessful bidders will be returned to them at the close of the sale, while that of the successful bidder will be retained as a guarantee deposit to be forfeited, in case of failure to comply with the conditions of the sale or the Forest Reserve Regulations.

Full particulars and detailed regulations governing the sale may be obtained from the forest Supervisor, Pincher Creek, Alberta, or from the District Forest Inspector, Calgary, Alberta.

W. W. CORY,

Deputy Minister of the Interior,  
Department of the Interior,  
Ottawa, June 21st, 1922.

### NOTICE

Henry Franz wishes to notify the merchants and other places of business in The Pass that his wife having left his bed and board, he will not be responsible for any debts incurred by her, and merchants giving her credit will be doing so at their own risk.  
(Signed) Henry Franz, Hillcrest.

The Loop tunnel became blocked yesterday through a slip and cave and traffic on the Crow eastward last night was delayed for several hours. The mails came through this morning, so the trouble undoubtedly has been overcome. Some months ago a semi-official announcement was made by the railroad officials that it was the intention of the company to do away with this tunnel, which at all seasons of the year threatens to shift and blockade the line, removing the top covering and making it into an open cut. The trouble yesterday may hasten this undertaking, which undoubtedly will be far more satisfactory than the continued difficulties experienced with the present tunnel.  
—Ferne Free Press.

## BANK'S MEMORIAL TO ITS GLORIOUS DEAD

Sir James Aikins delivering an oration after unveiling of Union Bank of Canada Memorial.

Commemorating the heroism of 150 officers of the Bank who gave up their lives in the Great War the memorial to the Union Bank of Canada has just been unveiled at McEllen's, 40 miles from Winnipeg. Sir James Aikins, the Lieutenant-Governor of Manitoba, officiated. Coincidentally with the unveiling of the Bank's heroic officers with the permanent site of the Lake-side, Fresh Air Camp for Children as the gift of the Bank, thus "consolidating the memory of the Bank's heroic officers with the highest type of service to humanity." This memorial is significant as the national recognition by the Union Bank of Canada of its officers' sacrifice in the Great War. The Bank directors in determining the memorial to mark the self sacrifice of its staff inclined to the view that sacrifice of such a nature should be marked by some corresponding service for the good of humanity and in consequence decided to perpetuate the movement initiated by H. B. Shaw, the Bank's Vice-President and General Manager, by starting a fresh air camp for Winnipeg's needy children. Nearly 1,000 children will be given a holiday at the Association's camp this year. Six hundred representative persons witnessed the unveiling and took part in the impressive dedicatory services at which His Grace, Archbishop Keewatin, C.M., C.M.G., and staff represented the military.

Bearing itself strong and bold, a single shaft of Tyndal stone that was quarried in the Province of Manitoba, the memorial majestically embodies that spirit of physical and moral courage which was the compelling force behind the heroism of Canada's glorious dead. The monument has a remarkably picturesque setting. It is centred on an elevation which juts into Lake Winnipeg, and massed in the background is a group of silver birches. Enshrining the cenotaph are nine fir trees, representing each of the Provinces of the Dominion. Carved on the facade is an oblong tablet, upon which have been carved the names of the 150 who compose the "Mighty Dead" of the Union Bank of Canada.

## Satisfaction comes in the genuine-

Ask for

and get it!

Delicious and Refreshing

## Let The Healthy Come

Observant men who are willing to face facts squarely, and who are willing to admit what those facts disclose regarding whether they support or deny their own preconceived ideas, and support or counter to their own particular and possibly selfish interests, have long since reached the conclusion that a country of Canada's magnitude, and variety of extent of natural resources in a raw state, must obtain a large increase in population if those resources are to be developed, if people now resident in Canada are to secure some relief from present handicaps and burdens, and if that measure of prospect to which the Dominion is entitled is to be achieved.

But when it comes to deciding upon policies by which the needed additional population is to be secured there is wide divergence of opinion. It is generally admitted that additional population must be obtained through immigration, although there are some few people who would limit immigration to the few who might come quite unselected to this country and who would, therefore, have the Federal Government discontinue all efforts to obtain immigrants.

Others, and a fairly large number, too, would restrict all immigration to people coming from the United States and Great Britain. These good people are ever fearful that Canada will be swamped by a horde of alien peoples, speaking various languages, and bringing to this country the superstitions, the hatreds, the national customs and manners of living of their native lands, with the result that the Canada of the future will be a nation of polyglot peoples with little in common, but with much that may make for disunion and discord.

Such people overlook, or ignore, one important factor in nation building, while they greatly exaggerate the extent of the menace they profess to so greatly fear. In the first place, it is important to recognize the fact that in the development of a new country like Canada all kinds and classes of labor are required. Work cannot be provided for the skilled artisan in factories until, first of all, the rough labor of the untutored and unskilled worker has been brought to bear upon the raw soil and materials with which this country abounds. Before a factory can give employment to the skilled worker, excavations must be dug, sewers constructed, railways and roads built, trees felled and sawn into lumber, coal mined, and numerous other odd jobs performed. The average immigrant from the United States and Great Britain does not come to Canada to do the kind of work which is needed here, with the idea of bettering their condition in life. If called upon to do this rough, heavy work here such immigrant becomes discouraged and soon leaves the country.

On the other hand men willing to do this kind of work, and looking for it, can be obtained in other countries and it would amount to national suicide to prohibit their entry into Canada through mistake, short-sighted ideas of keeping Canada solely the birthright of English-speaking peoples. Western Canada would not enjoy the railway facilities it now possesses, nor would the Prairie Provinces boast of its present fine cities and towns had it not been for the rough, unskilled work of the very class of people who would now, if some good people had their way, be barred from entry into this Dominion.

Nor is there any real danger of Canada being flooded with immigrants to such an extent as to jeopardize our British institutions and Canadian ideals. The United States became convinced that Europeans had to be kept from pouring into that country as the land of promise, with the result that a law was passed limiting the number of people of any race who might enter the States to three per cent. of the number of such race already domiciled there. In the first year of the operation of this law it has been discovered from the official figures that in the case of one country only did the full number eligible to enter come to the States. That country was Poland. On the other hand more people returned to Italy and Greece than came from those countries, while in the case of all other European countries, fewer immigrants came to the States than there have been allowed to enter under the new law.

It would appear, therefore, that there is no such great rush of European to this continent, and that the danger of flooding this country with "foreigners" is more imaginary than real.

Canada needs population, that need is manifest on every hand. It would, therefore, be Canada's national policy to admit any white people who want to come to our open areas and to work in the development of our natural resources, provided—and this is the only provision that should be rigidly enforced—they pass strict medical examination and are shown to hold a clear bill of health and give ordinary proof of good moral character. We should rigidly exclude mental, moral and physical defectives. Having done this, few other precautions are necessary, and it is safe to say that out of the enterprising ones who migrate to Canada—and it is the more enterprising who do immigrate—the greatest proportion will make good.

## Invent Plane to Swim in Water

Claim Made that it Will Safely Ride Rough Seas

An airplane that according to its inventors promises to revolutionize the tag soon will be submitted to practical tests, according to information in aviation circles. It is said to be unlike any ever constructed before and is really a ship with wings. The utmost secrecy is maintained as to the details of its construction but it is

said to mark the beginning of an aerial navy.

The plane is so constructed that it will not only float on calm waters, but it is claimed will be able to ride the roughest seas with the same security as an Atlantic liner. It is claimed that it will be equally airy without. The hull is long, light and slender, without bulkheads. The elasticity of the hull which will make this possible is the outcome of many years' scientific research. The new machine will be a vast improvement on the present type of amphibians.

The experimental machine carries but seven persons, but designs for larger ones have already been made. The airplane will carry four or six engines and will be capable of traveling 100 miles an hour. It will be equipped with fog horns, anchors and electric lights. When not in the air, it can travel on the water, and thus accompany a battle fleet under all conditions.

Machines designed chiefly for commercial service will be able to cross the Atlantic Ocean in less than forty-eight hours, it is claimed, carrying a heavy load.

## Not Much Danger

"Want to take a chance on an automobile, mister? Only \$1."

## Plans to Reduce European Armies

Lord Esher Makes Proposal to Reduce Armies to Reasonable Limits

Plans for the limitation of European armies were submitted to the Disarmament Commission of the League of Nations by Lord Esher of England.

Lord Esher's scheme proposed that the armies be trimmed to the following figures: France, 150,000; Poland and Italy, 130,000; Great Britain, Greece, Rumania, Jugoslavia, Spain, and Czechoslovakia, 90,000; and Belgium and Switzerland, 50,000.

His proposal was to apportion armies according to a unit plan. He suggested that 50,000 men comprise a unit, which would bring the armies of European powers to the figures named above.

Installation of an international staff at Geneva to study the plan, and to oversee its operation if decisive action is taken, was also proposed.

Admiral Seegrave, Great Britain, submitted a proposal that the naval disarmament treaty be extended to the nations other than those who attended the Washington arm conference.

His flesh horribly burnt

His drugist sold him a cheap acid corn remedy, instead of giving him good old reliable Putnam's Corn Extract which has been for fifty years the standard remedy of corns and warts. "Putnam's" never fails, it always a success. 25c everywhere. Refuse a substitute.

## Sweden Will Help Unemployed

Sweden's total appropriation for unemployment during 1922 will reach \$5,000,000 kronor, or about \$2,000,000. Government aid will be limited to those who, through no fault of their own, are without work. Persons unwilling to work will not be helped.

The Government will continue its efforts to send superfluous industrial workers back to the soil, the head of each family being given a good sized plot of ground.

## WORRIED WOMEN NEED RICH BLOOD

If the Blood Is Not Kept Pure Health Will Break Down

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But, at the same time, it is the duty of every woman to save her strength to meet any unusual demands that may come upon her, and family, for her future health may depend upon it.

To guard against a complete breakdown in health the blood must be kept rich, red and pure. No other medicine does this so well as Dr. Williams' Pink Pills. This medicine strengthens the nerves, restores the appetite and keeps every organ healthily toned up. Women cannot always rest when they should, but they can keep their strength by the occasional use of Dr. Williams' Pink Pills. Among those who have found benefit from this medicine is Mrs. Cora E. Conrad, Broad Cove, N.S., who says: "My system was very much run down, and my blood poor and watery. I had a great deal from headaches and dizziness; my appetite was poor, and I tired easily. I decided to try Dr. Williams' Pink Pills and have every reason to be glad that I did so. Soon I felt better, and under the continued use of the pills the headaches and dizziness were gone, and my blood seemed in a better condition than before. For this reason I recommend Dr. Williams' Pink Pills."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Puzzled

"If beg your pardon," said the lady collector timidly, "would you please help the Working Girls' Home?"

"Certainly," said the man, "but where are they?"

There is enough iron in the blood of forty-two men to make a ploughshare weighing twenty-four pounds.

## Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and purging, either simultaneously or alternately, and are usually sudden and very violent, and the matter ejected from the stomach has a bilious appearance and a nasty bitter taste.

On the first symptoms appearing, Dr. Fowler's Extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious. Said Dr. E. L. Campbell, N.B., writes: "We have been using Dr. Fowler's Extract of Wild Strawberry for cholera. My husband and I were pretty badly dead with it until we started to use your medicine, and after that to us we have found great relief, and are recommending it to all our friends."

"If your regulation stands behind Dr. Fowler's," therefore you are not experimenting with some new and untried remedy when you get the Price, 50c bottles, put out by The T. Milburn Co., Limited, Toronto, Ont.

## IT HELPS

It helps in all cases of indigestion, flatulence, heartburn, and all the troubles of the stomach and bowels. It is a powerful laxative and purgative, and is the best remedy for all the ailments of the digestive system. It is sold everywhere.

The ideal tonic laxative and spring blood purifier. Get a bottle today. Sold everywhere. PE-BU-NA COMPANY 244 St. Paul St., Montreal

## Radio Legislation

Uniformity Regarding Amateur Operators Is Sought

With the object of seeking uniformity in legislation governing the operation of amateur wireless and radio machines, telephone officials of the three western provinces are in-terchanging suggestions preparatory to a conference to be held towards the end of this month. Commissioner John E. Lowry, of the Manitoba Government telephones, states, "The installation of radio to enable Northern Manitoba an outlet to other portions of the province will be undertaken in the near future. Mr. Lowry having taken an option on one of the most modern sets when in Montreal recently."

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever prepared to the use of man. Many can testify as to its power in alleviating pain, and many more can certify that their health is due to its wonderful power is not expressed by the small price at which it sells.

## The Human Mechanism

Nothing Else in the World as Wonderful and Perfect

Where can we find a pump as perfect as the human heart? If the boss treats it right, it stays on the job more than 600,000 hours, making 4,200 strokes and pumping fifty gallons an hour. In the course of an average lifetime the heart pumps 3,000,000 gallons and makes 2,500,000,000 strokes. We have no telegraphic mechanism equal to that comprised in our nervous system; no wireless apparatus so efficient as the voice and the ear; no moving picture machine or other type of camera so perfect as the human eye; no ventilating plant so wonderful as that of nose, lungs and skin, and no electrical switchboard can compare with the spinal cord.—Floyd W. Parson, in 'World's Work.'

## Reclaimed Land

According to the Irrigation and Drainage Commissioner for Alberta, the work of drainage in Alberta is practically completed and a good portion of the 13,000 acres of land reclaimed is already being put under cultivation. This is the result of the Holden drainage system. The day land drainage scheme in which 15,000 acres will be involved is now in process of construction and work will be carried on through the summer, with a likelihood of getting it nearly or wholly completed this year.

## Excellent For Groupy Children.

When a child is suffering with croup or whooping cough, Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

## A Cruise on the Great Lakes

Enjoy to the Fullest Extent the Trip East

The trip to Eastern Canada (or the United States) can be made doubly enjoyable by including the delightful cruise on the Great Lakes from Port William and Port Arthur to Port McNicoll or Owen Sound on the Palatial Canadian Pacific Steamers "Geowatin," "Anahoe" and "Manitoba."

Three sailings a week from Port William and Port Arthur every Wednesday and Saturday to Port McNicoll, where direct connection is made with special train for Toronto and every Thursday for Owen Sound. The Great Lakes trip is a delightful diversion to the East—Restful, cool and refreshing.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailing, etc., and arrange every detail for an enjoyable trip.

About every five weeks the British and Foreign Bible Society publishes the Gospel in some fresh form.

## Ontario's Giant Seaplane

Government Forest Service Has Finest Aircraft on Continent

The Ontario Government Forest Service, which has inaugurated at its own expense a special aerial patrol this year, will have in commission the largest and fastest aircraft that has yet been seen on this continent. This machine, a Vickers "Viking" amphibian, arrived recently from England. The "Viking" to be used by the Ontario Government is identical with the machine that won first prize of 10,000 pounds sterling in the British Air Ministry tests of September last year. Operations will be centred at Reuil Lake, under Captain W. R. Maxwell, who some weeks ago performed a very unique feat of flying to Moose Factory in an aeroplane equipped with skis.

It is understood that the Ontario Department of Lands and Forests contemplates making a detailed inventory of the forest resources of the province by means of this most modern method of forest survey. Special aerial cameras will be employed in the work. The wing spread of the "Viking" is 45 feet. The motor, which is a Napier-Lion, develops 450 horsepower. The rate at full speed at 5,000 feet is 350 miles, while at a cruising speed of 90 miles per hour the "Viking" can travel 480 miles.

## Possibilities Of Commercial Aviation

French Airman's Average Speed Was 122 Miles an Hour

A feat which demonstrates the wonderful possibilities of commercial aviation has just been accomplished by two French airmen, Lieutenants Battellier and Carrier.

They agreed to race against each other from Paris to Marseille, and back by aeroplane, the loser to offer the winner a glass of port.

Lieutenant Carrier was in the air nine hours and five minutes, or an average speed of eighty-two miles an hour.

Lieutenant Battellier, however, did even better. His time was 7h. 45m., or an average speed of 122 miles an hour.

By train the return journey, Paris-Marseille-Paris, takes twenty-six hours.

## Drives Asthma Like Magic.

The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural remedy used in a natural way. The remedy, by relaxing the most remote passage of the affected tubes, brushes aside the trouble and allows for fresh air to enter. It is sold by dealers throughout the land.

## Japs Want Canadian Rubber Footwear

Manufacturers Advised a Good Market Awaits Their Product

Japanese buyers are looking to Canada to supply them with rubber footwear for the rainy season. Enquiries have been received by the Department of Trade and Commerce from nearly a score of Japanese import and export firms asking if Canadian manufacturers can supply them with rubber footwear for wear over the boots similar to those worn in Canada.

Canadian manufacturers are being advised by the department that there is a good market awaiting their product in Japan if they care to develop the business there.

## Canada Exports in Cars

Canada is continually ranking higher as a source of purchase of motor cars by Great Britain. During the first quarter of 1922 the Dominion ranked first as a source for the number of finished cars and fourth with respect to chassis, in the British motor car imports. France ranked second with regard to both finished cars and chassis. Italy was third for finished cars and first for chassis, while the United States was fourth in finished cars and third in chassis.

## Minard's Liniment Relieves Neuralgia

Times Have Changed  
It used to be perfectly proper for a young man to offer his seat in the street car to the strange but beautiful young woman, but he's taking chances nowadays on being arrested as a match if he stops his automobile at the street corner and offers to give the strange but beautiful young woman a ride.—Detroit Free Press.

## Phone Popular in B.C.

With the ratio of telephone per capita in British Columbia greater than any other province of Canada telephone growth is still proceeding in British Columbia. Nearly 50,000 instruments are in use in Greater Vancouver, which has a population of about 115,000.

An indirect lightning fixture of a Milwaukee theatre weighs 5,500 pounds.

Minard's Liniment for Croup

JAMES P. HUMPHREYS, well-known automobile man of Hebron, Md., who declares he believes Tanlac is the best thing to overcome stomach trouble and run down condition. States it completely restored his health.

"I believe in giving everything its due and I want to say right now I just can't praise Tanlac too highly for what it has done in my case," declared James P. Humphreys, proprietor of the Hebron Motor Co., Hebron, Md. "For three years or more I suffered from indigestion. After eating I would bloat terribly with gas and my heart would palpitate until it interfered with my breathing. I was habitually constipated and my nerves were all upset. My sleep was un-sound. I got up mornings all tired out, and I was only a shadow of the former self."

"Well, Tanlac has given me a good appetite, stomach trouble has disappeared, my nerves have steadied down, and I have gained several pounds. Tanlac, to my mind, is the best thing ever sold for stomach trouble and run down condition." Tanlac is sold by all good druggists.

## Great Lakes Cruise

Pleasant Break in Journey to Eastern Canada Going by Lake and Rail

Travelers to Eastern Canada will find the Great Lakes tour a delightful break in a comparatively long journey.

The freedom, the clean cool comfort, the fun on shipboard, the concerts, promenades and dances, the excellent meals, appeal to all who travel on the palatial steamers "Nuronic," "Hamonite" and "Huronite," that sail from Port Arthur, Sarnia, Monday and Wednesdays. You will enjoy the sail down beautiful St. Mary's River, the thrill of passing through the "500" locks, and a delightful and restful trip across Lakes Superior and Huron. The fare by lake and rail to Toronto and points East is exactly the same as by all-rail. The cost of meals and berth on steamer however, is particularly low. Just \$10.00 one way. Any Canadian National-Grand Tourist Ticket Agent will give you all particulars.

## Money for Roads

British Columbia is spending approximately \$1,500,000 on the construction of new roads this season. In addition to the annual maintenance expenditure on existing roads, the province will also do its part in advancing the completion of the trans-Canada highway scheme so Hon. W. H. Sutherland, Minister of Public Works, declared recently.

## MUSHROOMS PAY

Need wanted to grow mushrooms? Here is how to do it. Send for our free booklet. It tells you everything you need to know about growing mushrooms. It is a great help to you. Send for it today. Address: The Mushroom Grower, 1234 Main St., New York, N.Y.

## DETRE'S MACHINERY TORONTO

**BEAUTY OF THE SKIN**  
is the natural condition, and is obtainable by the use of Dr. Chase's Ointment, which is a powerful and reliable remedy for all the troubles of the skin, including eczema, psoriasis, and all the other troubles of the skin. It is sold everywhere.

**Dr. Chase's Ointment**

## Irish Rebels Have The Upper Hand In South Of Ireland

Cork—Cork is in complete control of the Republicans, who now have their field general headquarters at Clonmel, to which place they were transferred from Limerick. An official bulletin issued by the headquarters says:

"Heavy firing continues in Limerick city. The Caher-Conliffe barracks, in County Limerick, occupied after a stiff engagement. Generals Hayes and Conliffe and five other officers were taken prisoner. A party of Free State soldiers was disarmed in Galway city without resistance.

"A Free State convoy of 18 was attacked by a mid-Claire column, and a Free State brigadier, and rifles and ammunition were captured. Heavy fighting is reported from West Clare."

Commandant-General Daniel Breen, of the Republican army, has issued an appeal to "my comrades of the Free State side" to join the Republicans and discontinue fighting on the side of the English against the "Republic."

In the interest of the health of 82,000 insured workers, the county insurance committee has passed a resolution appealing for an armistice with a view to arranging a conference between the leaders of the Free State and Republicans.

London—Present interest in the Irish situation here centres upon conditions in the south. Copies of the Cork Examiner reaching here show that its office is in possession of the irregulars, who censor all its news but permit the editor to publish a statement that he is not responsible for what they say. The newspaper is filled with accounts of alleged Republican excesses in Munster.

### Britain Will Not Change Naval Policy

Government Has No Intention of Building Capital Ships  
London—Baron Lee, First Lord of the Admiralty, answering a question in the House of Lords, declared there had been no new developments in connection with air or submarine attacks which necessitated a reversal of the British naval policy. Therefore the Government had not reconsidered and did not intend to reconsider the policy providing for the building of two capital ships.

## Cattle Embargo Question Is Again Discussed By House Of Lords

London—Members of the House of Lords mustered in fair numbers for the debate on the proposal to remove the embargo on Canadian cattle. A few Canadians were present, but the general spectacle in the upper chamber failed to give the impression that the subject under discussion was one of momentous importance to the Empire.

Lord Ernie, a former minister of agriculture, admitted that undoubtedly a pledge had been given at the Imperial War Conference in 1917, but it was not a definite pledge to reverse the domestic policy of exclusion, but rather a compromise contingent upon a change in agricultural circumstances, the scope and meaning of which must be regarded with the context of changed time and circumstances. What he pledged himself at the conference was, so far as the machinery of the Government's policy was concerned, the withdrawal of allegations of disease among Canadian cattle and the admitting to full doubtfulness of the original case for exclusion.

Lord Ernie maintained his explanation given in correspondence to the press some time ago, declaring that had he remained minister of agriculture, he would have done his best to institute a policy for the limited admission of cattle, adding that he probably would have failed and resigned.

Lord Birkenhead, the Lord Chan-

### Would Reorganize Austrian Industry

Paris—Henry Morgenthau, former United States ambassador to Turkey, has announced that he was arranging to form an international corporation to be capitalized at from \$10,000,000 to \$40,000,000, for the purpose of reorganizing Austrian industry and to show the world that it is possible to prevent the bankruptcy of European states. Mr. Morgenthau, who has just returned to Paris from Vienna, where he was assured of the co-operation of the Austrian Government, is now discussing his project with various financiers.

### Making Effort to Open Western Mines

American Strike Settlement Might Solve Canadian Coal Problem  
Ottawa—The labor department is still continuing its efforts to bring about a return to work in the coal fields of district 18, Southern Alberta, and British Columbia. Following the telegram of Hon. James Munnick, Minister of Labor, the agent of the department in that district has been in touch with both employers and employees.

Conditions in the Alberta and British Columbia coal fields are closely related to those existing across the border, where President Harding is making an endeavor to bring about a resumption of coalmining operation. The Canadian miners in these western fields have been on strike since the end of March. In spite, however, of the dispute between them and the coal operators in regard to wages, it is understood that relations between the two sides of the dispute are quite friendly, the miners being at the present time very largely engaged in other industries. It would not surprise competent observers of the situation if a speedy settlement of the Canadian dispute would follow upon a return to work in the American fields.

France Will Pay Debt to U.S.  
New York—Bringing the message that France will pay her debt, but adding that a lot depends on Germany, Jean V. Parmentier, official representative of the French Government, arrived on the steamer Le Savoie, on his way to Washington as an adviser at the coming sessions of the inter-allied debt funding commission.

Give your local merchants a chance. Buy at home.

### British Mission Will Tour Canada

Object is to Secure Entries for Empire Exhibition

Ottawa—The Government has received a communication from Right Hon. Winston Churchill, Secretary of State for the colonies, intimating that a mission will visit Canada next month in connection with the organization of the proposed British Empire Exhibition.

In view of the Imperial nature of the work which the mission is setting out to accomplish, the Dominion Government has agreed to grant free transportation over the lines under its control to the seven members of the mission.

The object of the mission in coming to Canada is to induce the Canadian Government to take part in the proposed British Empire Exhibition.

### B.C. Losses From Forest Fires Heavy

Over 60,000,000 Feet of Green Wood Destroyed in June  
Vancouver, B.C.—More than 60,000,000 feet of green timber, alone valued at approximately \$200,000, has been destroyed by forest fires during the last month. During the last few weeks between 30 and 40 thousand acres have been swept by fire. At Grassy Bay, 150 miles northwest of Vancouver, fire has destroyed 5,000,000 feet of standing fir and cedar. It is the worst season from the viewpoint of fire loss that the coast district has experienced for many years.

### Premier at Washington

New Canada-United States Boundary Treaty is Proposed

Washington—A proposal that the century-old agreement between the United States and Canada regarding the military and naval defences maintained on the international boundary be revised in permanent form and in line with the agreements reached at the Washington conference was the chief mission here of Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada, who is conferring with Secretary Hughes. A new treaty modernizing the Rush-Bagot agreement probably will be negotiated between the two countries.

### Activity in Lumber Camps

Boom in Building is Causing Shortage Of Lumber Supplies

Ottawa—The present activity in building is causing some shortage in the wholesale lumber supply, with the result that camps will be in very active operation during the coming season. Companies which have not been in operation during the past two years will be starting up again. According to the Dominion Livestock Branch, the activity in the lumber camps is also expected to have a very beneficial effect on the horse market.

Legless Man Good Swimmer  
Sudbury—Although he lost both legs in an accident some years ago, George Coombs, of Sudbury, won second prize in the quarter-mile swimming race at the regatta here.

Reichstag Fixes Amount of Loan  
Berlin—The Reichstag taxation committee has fixed the amount of the compulsory loan at 70 billion marks. The entire proceeds will be used to cover deliveries in kind to the Allies.

### Montreal Port Breaks Record

Grain Cargoes to July 9 Totalled 500,000 Bushels More than 1921  
Montreal—That the port of Montreal is not only equaling but even exceeding the record grain shipments of last year was shown by figures supplied by the Grain Clearance Board. From the opening of navigation to the evening of Sunday, July 9, these totalled 39,698,162 bushels and against 39,120,918 for the same period 1921. Last year's total output from Montreal amounted to 138,633,939 bushels, nearly fifty millions more than from any other port on the North American continent.

### Moslem Leader Acquitted

Sentenced May 4 to Two Years Imprisonment for Sedition

Ahmedabad, British India—Harri Mohani, President of the All-India Moslem League, has been acquitted by the high court on a charge of inciting war.

Mohani was sentenced to two years imprisonment on May 4 for sedition after the judge had refused to accept a unanimous verdict of not guilty, rendered by a jury which included five Indians. In a speech before the All-India Moslem League last December he was alleged to have advocated guerrilla warfare to bring about establishment of a republic, which would be called the United States of India.

### Body Turned to Stone

Pittsfield, Mass.—James Burke, 37, whose body for nine years had been slowly turning to stone, died recently in the Mother Margaret Mary home in Cheshire.

Nine years ago, while holding a clerical position in the Panama Canal zone, he became infected from an insect bite; his bones started to stiffen and the process of ossification was under way.

While suffering much discomfort he had little pain and always was cheerful.

### Missouri Wreck Kills Five

Kansas City, Mo.—Five persons were killed and 40 injured, most of them seriously, when the Missouri Pacific Scenic Flyer, westbound from St. Louis to California, collided head-on with a local freight train near here.

### Killed by Train

Woodstock, Ont.—Cecil Young, 24, both deaf and dumb, was instantly killed when he walked into the path of a freight train at a level crossing.

"ABOUT THOSE BILLIONS WE OWE EACH OTHER—LET'S CALL IT OFF."

New York Times.

## Privy Council Has Reserved Judgment In G. T. R. Appeal Case

### Test Rights Of Crown to Property

Vancouver—In the case of Rex versus the Attorney-General of British Columbia which is before the Privy Council in London, the rights of the Crown, as vested in the province, to property which reverts to the Crown, is being tested. The amount involved is comparatively small, the object of the present case being to test the legal principle involved. The case went from the provincial courts last autumn to the Supreme Court of Canada, from whose judgment appeal was taken to the Privy Council.

### Conference on Russian Problems

Stormy Sessions Held at The Hague Widens Chasm Between Russia and Other Powers

"The Hague—A stormy session of the conference on Russian problems opened all day with the signing of an agreement between the Russians and the other powers.

The chasm between the Russians and the other powers apparently is wider than originally. The group is not divided as it was at Geneva. The British and French are acting in agreement on the demands concerning nationalized property which the Russians say practically amounts to absolute restitution. This position was developed at the meeting this morning of the sub-committee on property, after which M. Litvinoff, head of the Soviet, stated emphatically he believed that the conference had exhausted its usefulness and would end without results. This afternoon the sub-committee on debts had equally unfavorable results. The Russians insisted on having the present conference fix the total amount of pre-war debts Russia would be expected to pay, but the non-Russians stood out for fixing the sum through mixed commissions at a later date.

M. Litvinoff granted an interview in which he declared that the non-Russian delegates had clearly agreed to make the conference a failure and to refuse to sign the final declaration down to answer questions in order to justify breaking up the meeting.

"We have had no reply to our repeated requests for definite statements regarding the conference. We are to get for reconstruction," he said. "Instead of definite answers we get lectures on confidence and how to restore confidence. If we cannot get credits through the Governments we shall get private credits."

### Mosque Collapses

Cairo—Fourteen persons were killed and 20 others seriously injured through the fall of the roof of the Abi El-Hel Mosque during the celebration of the feast of the patron saint. Great damage was done to the antiquities in the sacred structure.

### West May Need 60,000 Harvesters

Montreal—The demand of the western harvest fields this year will exceed that of other years. Last year the number of men going from the east was 30,000. This year in all probability, according to an official of the Canadian Pacific Railway, the requirements of the west will be about sixty thousand. Crop reports from all quarters indicate a very satisfactory condition in the west and it is likely the first train load of harvesters will leave here about August 11 or 12.

### Germany Maintains

That Country Unable

To Meet Cash Payments

Paris—Germany served notice on the Allied powers through the Reparations Commission that she could no longer meet cash obligations of any sort, whether growing out of the Versailles treaty stipulations undertaken by acceptance of the London ultimatum of May 5, 1921, or arranged by the schedule of payments drawn up by the Reparations Commission on March 21, 1922.

The depreciation of the mark on foreign exchanges is given as the reason for the possibility of Germany to pay and for her request that she be relieved of cash engagements, including the payment of 32,000,000 gold marks, as well as all subsequent payments in 1922, 1923 and 1924.

The German note submitted to the reparations commission makes no mention of Germany's intention regarding cash payments after 1924, but asks that the negotiations for a foreign loan interrupted at Paris last month, which Germany blames for the continued fall of the mark, be resumed at an early date, or a financial, economic and social catastrophe in Germany would be likely to develop.

The Germans asked to be relieved

of payment on the ground that the money was badly needed to pay for foreign cereals soon to be purchased in order to insure enough bread for the people.

In the note, Germany points out that in May, 1921, the rate of 60 paper marks to the dollar formed the basis of calculation of reparations payment, while, on July 4 last, the mark had declined to 500 for the dollar. In order to effect the payment of 720,000,000 gold marks during this year the issue of 80 billion paper marks would be necessary with the mark at its present value.

The note concludes: "The recent development in the rate of exchange of the mark, which began with the adjournment of the negotiations of the loan commission, necessitates a speedy provision of settlement, the relief payment expected from a foreign loan not having been released. In consideration of the above, the German Government would be glad if the commission would make its decision as to demands for reparation with all possible speed. The German Government trusts that such decision will favor the resumption of the loan negotiations."

The option among counsel is that their lordships will probably allow the appeal on the ground that the judgment of Sir Walter Cassels included a matter from the Drayton Acworth report, and also because of the rejection of evidence concerning reproduction value. It was plain, however, during the closing stages of the proceedings that their lordships were fully impressed with the gravity of rehearsing the arbitration. This was especially evident when Sir John Simon, on behalf of the Grand Trunk Railway, in his final address again referred to the Cassels judgment.

Lord Carson asked: "Supposing we come to the conclusion that Sir Walter Cassels was wrong and we refer the matter back: what will happen then? Will Sir Walter Cassels give another judgment, alternating certain portions of his previous judgment, and relying on other facts? It is a very grave matter, you see."

Sir John Simon replied: "I do not at all shut my eyes to the fact that rehearsing the arbitration is a very serious undertaking, but if there be a complaint on a point of law having some substance behind it, I am sure the fact of setting it right will entail considerable time, labor and expense, but it will not deflect your lordships' judgment."

### Mount Everest Party Returning

Have Been Detained in Thibet by Flooded Rivers

London—The mystery of the silence of Brig-General Charles C. Bruce and the other members of the Mount Everest party has been cleared up by the receipt of a letter, according to the Calcutta correspondent of the Daily News, saying that all were in fairly good health notwithstanding considerable hardship. They had been held up by flooded rivers in Thibet.

### West May Need 60,000 Harvesters

Montreal—The demand of the western harvest fields this year will exceed that of other years. Last year the number of men going from the east was 30,000. This year in all probability, according to an official of the Canadian Pacific Railway, the requirements of the west will be about sixty thousand. Crop reports from all quarters indicate a very satisfactory condition in the west and it is likely the first train load of harvesters will leave here about August 11 or 12.

The footballers held a meeting on the field on Monday evening after a good practice and elected the following officers for this year: President—J. Turnbull; Secretary—C. Thompson; Treasurer—J. Crowder; Trainer—James McKee; Captain—J. McAndrew; Committee—W. McVay and T. Smith. There was a good turnout to the meeting and all seemed very enthusiastic over the prospects for this year's team.

Having occasion to kill a nine-months-old pullet which showed symptoms of some wasting disease, a Newfoundland man found on opening that the bird had no

## Hillcrest Happenings

(By our own dear Felix)

Mr. and Mrs. E. Butler accompanied by Eric Morley and Donald Grant returned on the 12th from a motor trip to Calgary and other points.

Bob Crighton, John Douglas and Sam Douglas, who left here some time ago, are now working at Kimberly, B. C., according to letters received from them.

Ed. Royle and family and the Misses Gladys and Olive Howcroft left on Monday for a motor tour to Banff and Lake Louise. They will be absent for a couple of weeks.

Several Hillcrest Oddfellows and Rebekahs journeyed to Blairmore on the 11th, to take part in the joint installation of the Blairmore and Bellevue lodges.

Now that the fishing season is on, the usual stories are going the rounds of the tremendous fish that was captured. One was heard to say the other day that he saw one eight feet long and two feet broad—a young whale. Harpoons are being sought and a special party is being formed to catch it.

The hard-times dance held in the Union hall on Tuesday night the 14th, was one of the most successful affairs ever held in this district. The hall was too small to accommodate the crowd and it seemed to put one in mind of the good old times for which Hillcrest used to be so famous. The prize given by the Marathon Cafe for the best hobo lady, a splendid work basket, was won by Mrs. Cunningham and the box of cigars, donated by Angus of the Green House for the best hobo gent, was won by Harry White. Mr. and Mrs. Jack Moorehouse ran a very close second, the only thing that killed Jack being his sailor hat, which was a bit too large. The music was supplied by the celebrated Goodwin Orchestra and it was excellent all through. What need there is for anyone to engage an outside orchestra when we have such a splendid one as this right in the district, and all Vets. is hard to understand. The Home-Sweet-Home was played at 4 a. m.

gizzard, but had hundreds of minute eggs not developed. It is presumed that the fact of having no gizzard, the bird could not digest its food and would have eventually caused its death.

## Local and General Items

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co.

J. Weistenholme has purchased a new Gray Dort from Smallwood & Sons, local dealers.

Mr. and Mrs. Mark Jenkins, of Staveland, spent a few days in town this week.

Fred Theell moved his stock of men's furnishings back to Lathbridge last week end.

Miss Ada Montalbetti, of Missoula, Mont., is visiting her father, Mr. Jos. Montalbetti, this week.

John Shevels, of Bellevue, has occupied the pulpit of the Union church in the absence of Rev. Young.

Work was commenced this week preparing the paragonage of the Union church for the new addition.

Dr. Dubuc, of Pincher Creek, is relieving Dr. J. Olivier of his duties here, and not Dr. Beeman as stated last week.

In the list of those who donated to the football club which we published last week, the name of J. Montalbetti was omitted.

Mr. Peter Ubertin was appointed one of the directors of the Exhibitor's Association at a convention held in Edmonton last week.

Fernie lost their first league game last week when the White Spruce team ran in ten scores in the eighth and beat them to the tune of 16 to 14.

Judging from the number of tourists cars that are going through here every day, every body but some of us old sticks are enjoying a holiday.

**WANTED TO BUY**—1 1/2 or 2 H.P. gasoline engine. Must be in good working condition. Apply Blairmore Vulcanizing and Battery Station, 20-T.C.

Prohibition is having wonderful results, not only in Canada, but in the new Dominion of Newfoundland, where doctors carry the supply of booze and sell it at their own prices.

The Rev. W. J. Clark D. D., of St. Andrew's church, Westmont, Montreal, has just been elected to the highest office in the gift of Canadian Presbyterians—moderation of the general assembly.

W. J. Bartlett, who had been on a visit to St. John's, came to Curling on Wednesday and will spend a few weeks here before returning to Western Canada—Western Star, Curling, Newfoundland.

E. F. Rahal was overcome with heat last Thursday afternoon, in the grand stand at the Calgary fair, and had to be taken to a hospital. He was unconscious for three days, but was able to leave the hospital Tuesday evening.—Nanton News.

A bow-legged Nova Scotian was advised by a consulting physician to pray one hundred times a day for three weeks for the straightening of his limbs. He forgot, however, how often he had to pray, and exceeded the instructions by praying 180 times a day, with the result that in three weeks he became knock-kneed.

Percy Smallwood, of the Smallwood garage, was pretty badly burned about the wrists and face on Friday morning last when the acetylene tank with which he was working caught fire. The tank had a faulty valve and in some unaccountable manner caught fire, and had Percy not acted quickly, the garage would undoubtedly have been destroyed. Robt. Smallwood suffered very severe burns a few months ago when a can of gasoline caught fire.

Mrs. A. E. Ferguson and son left yesterday morning for Fernie.

Mr. Rudolphi, of Fernie, is relieving Mr. Bird at the Home Bank.

The date of the Cowley School Fair is set for Friday, September the 8th.

Mr. Clare Snyder of the Union Bank staff is spending a few weeks at his home in Cowley.

Joe Howe had an accident while out fishing last week and is now nursing a blood poisoned thumb.

Hillcrest beat the local footballers by the score of one to nothing on the local field a week yesterday.

Dr. J. Olivier and family and Mr. G. N. Elwin motored right through to Spokane and arrived bona yesterday.

Dr. R. K. Lillie arrived home from the east this week. He drove a new McLaughlin car home from the factory.

Dr. Nielson, dentist, has located at Coleman. He was formerly at Bassano and left a large number of friends in that town.

Rev. W. T. Young returned from Edmonton this morning and reports that Mrs. Young is progressing slowly but favorably.

The coroner's inquest into the death of Mrs. Mary Bort was held and finished last night. The jury returned a verdict of death from natural causes.

Mr. and Mrs. Harold Pinkney and Miss Blanche Pinkney returned the first part of this week from a camping trip at the Waterton Lakes.

The Tuxie and Trail Ranger's summer camp for the Crows' Nest District, opens at Lee Lake on August 1st. The girls camp is from the 7th to the 14th of August.

In India the village are so numerous that if Jesus Christ had begun to preach in them 1900 years ago and had visited in one each day, he would not yet have completed the round.

L. Dutil has removed the buildings on the lots next to his residence that he recently purchased. One of them was the first office building of the late D. Sinclair and was an old landmark in the town.

J. E. Wood, civil engineer, was in town for a few days last week end. He was around Blairmore and Lundbreck a few years ago surveying for an oil company. He is at present working on a proposed pulp and paper mill near Elke, B. C.

The Catholic church is now one of the nicest appearing church buildings in the Pass. With the coat of stucco and white trimmings and new fence, it presents a fine, clean appearance and is a church which the local congregation can be justly proud of.

The two car accidents of the past ten days should serve as a grim reminder to drivers that they cannot be too careful. It seems that both accidents were due to carelessness on the part of the drivers—the first one of the Ford turning turtle, being a case of careless and reckless driving and the one on Monday being, as it seems, undue carelessness for one so close to a railroad crossing. Even the most careful driver cannot be too careful and we only wonder that there are not more accidents right on the streets here, for every day we see cars going up and down with the driver gazing around taking in the sights. If you drive a car **BE CAREFUL**—you may not value your own life but there are other persons who do and they should have some consideration.
